Frontend: HTML5, CSS3, React.js, React Native (Expo), Flutter, Responsive Design

Backend: Laravel, PHP, Node.js, MySQL, REST APIs, Authentication

Tools: Git, GitHub, Docker, VS Code, XAMPP, n8n

Concepts: OOP, MVC Architecture, UI/UX Design, Data Structures, API Design

Projects

PSYRA – Full-Stack Mental Health Platform for Healthcare Professionals 2025–2026

- Developed a full-stack web platform to support mental well-being for healthcare professionals.
- Implemented mental health assessments, mood tracking, dashboards, and responsive interfaces.
- Built using Laravel, MySQL, HTML, CSS, and JavaScript following MVC architecture.
- **Technologies:** Laravel, PHP, MySQL, JavaScript, HTML5, CSS3.

DZHouse – Full-Stack Rental Platform 2025

- Developed a rental platform with user authentication, property listings, booking, messaging, and account management.
- Built a responsive user interface with a secure PHP/MySQL backend.
- **Technologies:** PHP, MySQL, HTML5, CSS3, JavaScript.

Aurora – Attention Recovery System 2026

- Developed a premium cross-platform mobile application using React Native (Expo).
- Implemented focus sessions, habit tracking, journaling, progress analytics, and a modern glassmorphism interface.
- Designed a responsive user experience with reusable components and local data persistence.
- **Technologies:** React Native (Expo), JavaScript, Node.js, AsyncStorage.

Flutter Mobile Applications 2025

- Built cross-platform mobile applications with Flutter and Dart.
- Integrated REST APIs, local storage, and responsive mobile interfaces.
- **Technologies:** Flutter, Dart, REST APIs.

Education

Bachelor's Degree (Licence) in Computer Science

Badji Mokhtar University – Annaba

Graduated: June 2026
